

Organizing For Kids

Audacious. Spirited. Exhilarating...

Inside every child's mind is an array of musical instruments in need of a conductor. Their rooms are their performance spaces. Each kid's unique behavior, characteristics and personality inform the organizing solutions we create for them.

We pay attention to what fascinates and motivates them. Are they big readers? Obsessed with Legos? Are they laser-focused when doing homework, or distracted by what's going on outside the window? Do they engage in meaningful ways, or seem to make eye contact only with their devices?

At Chaos Commandos, we are professional organizers as well as designers, which allows us to create the most meaningful solutions for each individual child. The way we apply color and graphics can positively affect cognition, helping kids understand where their things belong. And we know that lighting fixtures do more than illuminate a room--we choose lighting that keeps fatigue at bay, and helps students better focus on their schoolwork.

The images on the following pages illustrate our unique approach. Let's talk about how we can create the perfect environment for your child.

With The Lights Off...

Military -Themed Hobby Room

Teen Boy's Bedroom-Before

Mythology - Themed Room - After

A This Greek Mythology-themed room was inspired by our client's favorite adventure novels.

B Cleverly disguised as a digital clock, we loaded this tablet with apps that encourage learning, focus and organization.

C We put a magnetic memo board within easy reach for items that might get lost or become clutter.

D A one-week dry-erase calendar makes it simpler to keep track of to-do's, science projects and karate practice.

E A simple desktop organizer holds basic supplies like pens, clips and note paper.

F Quick thought? An inspired idea? These days, our client always keeps a Jot tablet and stylus handy.

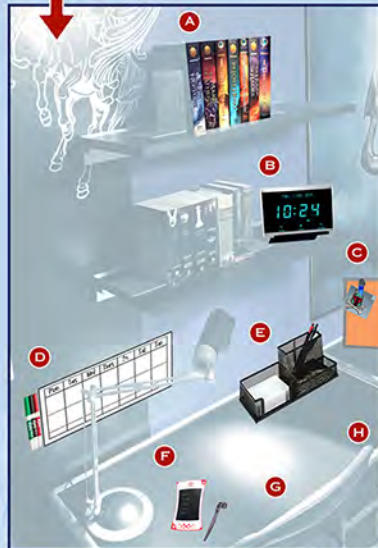

G A well-designed chair promotes good posture and proper focus.

H All school-related paperwork and supplies are now stored in a sleek filing cabinet.

Uncluttered and Newly Equipped For Schoolwork
